Maestro Digital Mine is hosting an Industry-led Panel Discussion on:

Communication Infrastructure: Building the Digital Highway to Connectivity Underground

Monday, March 2 | 3:00 pm - 4:00 pm

PDAC Conference, Northern Ontario Mining Showcase
Pavilion #6501N, North Building, MTCC, Toronto, ON

Join Panelists from mining companies – Newmont, Trevali, Yamana Gold and Vale – leading the Digital Transformation to discuss and debate underground communications infrastructure (LTE, Wi-Fi, leaky feeder and fiber-optic networks). *(Stay tuned for more information on our panelists.)*

This panel will be moderated by the host of
TVO's The Agenda, **Steve Paikin.**

Matthew Curtis

Senior Technology
Manager, Newmont

Derek du Preez

Chief Technology Officer,
Trevali

Chris Burgess

Director, Innovation
and Transformation,
Yamana Gold

Anthony Downs

Digital Leader, Vale

Discuss the applications that are driving the need for connectivity to improve production, reduce costs and enable worker safety.

Determine what technology solutions are best suited for what specific challenge underground. Bridging the gap between OT and IT to better integrate technology in operating mines.

Break through the unknowns about connectivity underground.

Arrive early, seating is limited.
All are welcome.
